105-82555-209, Oswald file, Wannall to W.C.Sullivan 11/29/63 on Edward Scannell Butler. I know of your interest in this. It says they got the SISS executive session transcript you never could get. I imagine the FBI withheld it and could if they wanted to, properly. This refers to an 11/27 interview of Butler vy Sullivan which might be interesting. That indicates Butler hung around Washington for a few days at least. My hunch has always been that Butler was more than an informant and that he was an operative for the L. State Un-American Committee. File Butler.
